SUBJECT: Fiscal Year (FY) 2026-27 PEBB Program Rates – Composite

Beginning July 1, 2026, your employer base rate will be \$1,334 per employee per month. This rate was established in ESSB 5998 and passed during the 69th Legislature's 2026 Regular Session, which outlines funding levels for public employee benefits and cover benefits administered by the Health Care Authority (HCA) through the Public Employees Benefits Board (PEBB) Program.

This change does not impact employers on “tiered rates” (rates that vary based on employee enrollment tier), the employer group rate surcharge, or PEBB Continuation Coverage (COBRA and unpaid leave) rates, which remain the same until December 31, 2026. You will receive notification of the 2027 plan rates in the fall, prior to the PEBB Program open enrollment period.

In addition to the employee medical plan premium, employees may be subject to the following monthly surcharges:

- \$25 per account for tobacco use
- \$50 for spouse or state-registered domestic partner (SRDP) coverage

As a reminder, you must pay the full premium rate for every eligible employee as outlined in Title 182 WAC, including for those who waive coverage. If employees attest to any tobacco use by account members and/or spouse or SRDP coverage, applicable surcharges must be added to the total premium in the table below for remittance to HCA. You are responsible for collecting employee contributions and applicable premium surcharges and sending the total billed amount to the HCA. See tables below for monthly premiums and surcharges.
