Additional information when completing the Employer Group Questionnaire

If an employer has more than 50 full-time equivalent (FTE) employees, Health Net may provide the employer a quote as a large group. Health Net must treat the employer as a small group if the employer has at least one but not more than 50 FTEs.

When counting employees to determine group size, temporary, leased, and contracted employees are excluded.

In answering the questions about employees, an owner is generally not considered an employee even if the owner performs services for the business for compensation; however, an owner may participate in a group plan as long as the group employs at least one common law employee. An owner includes:

- A sole proprietor and the sole proprietor's spouse;
- A member of a single-member limited liability company and the member's spouse;
- The owner of a wholly owned corporation and the owner's spouse.

Controlled and Affiliated Groups

Controlled and Affiliated Groups means groups that are commonly controlled and/or affiliated as described in subsection (b), (c), (m), or (o) of section 414 of the Internal Revenue Code of 1986. If a group is a controlled or affiliated group of employers, a carrier must treat the group as a single group, and the controlled group must complete one group profile form. Controlled groups include parent-subsidiary, brother-sister and the combination of both of the preceding.

Full-Time Employees

A full-time employee for any calendar month is an employee who has on average at least 30 hours of service per week during the calendar month, or at least 130 hours of service during the calendar month.

Seasonal Work

An employer is not considered to have more than 50 full-time employees (including full-time equivalent employees) if both of the following apply:

1. The employer's workforce exceeds 50 full-time employees (including full-time equivalent employees) for 120 days or fewer during the calendar year, and
2. The employees in excess of 50 employed during such 120-day period are seasonal workers.

FTEs – Full-time Equivalent Employees

A full-time equivalent employee is a combination of employees, each of whom individually is not a full-time employee, but who, in combination, are equivalent to a full-time employee. An employer determines its number of full-time-equivalent employees for a month in the two steps that follow:

1. Combine the number of hours of service of all non-full-time employees for the month but do not include more than 120 hours of service per employee, and
2. Divide the total by 120.

The following employees should not be included in the count of FTEs:

- Leased employees³
- Contracted employees
- Retired or former employees on continuation of coverage
- A sole proprietor
- A partner in a partnership
- A 2-percent S corporation shareholder
- The spouse of a person who is a sole proprietor, a partner in a partnership or a 2-percent
- S corporation shareholder
- A worker described in 26 U.S.C. Section 3508

An employer's number of full-time equivalent employees (or part-time employees) is only relevant to determining whether an employer is a large employer.

¹Note: Generally, employers who normally employed 20 or more employees during the previous calendar year are subject to federal COBRA. Employers who employed 2–19 employees on at least 50% of its working days the previous calendar year are subject to State Continuation. Please consult your legal counsel if you need help determining which law applies to you.

²This information is for rating purposes and not to determine group size. The determination of how to count employees of related corporate entities when calculating group size for medical loss ratio (MLR) purposes is based on whether the entities are considered a single employer under Section 414 of the Internal Revenue Code (subsection (b), (c), (m), or (o)) and is not based on the multiple tax identification status of the related entities.

³An employer may continue to offer group health insurance to its leased workers in accordance with ORS 743.521, but the leased employees are not included in the employee count when determining group size.
